

The demand for eco-related living products is rapidly increasing as consumers are realising that they can make a very real difference to the sustainability of our global and local environment. Now consumers are making deliberate choices and buying green.

The Sustainable Living Expo targets the ever-growing 'Green Generation' of environmentally conscious people who are seeking to become more informed about the options available to them in new technologies and sustainability practices.

This expo aims to educate and encourage the public to embrace Sustainable Living as the new emerging lifestyle trend. It is also designed to connect the public with local growers and businesses, provide organic and natural living options and a wider range of choices for a healthier life for us ...and the environment.

Bookings

At the time the exhibitor makes a booking for the Expo, the exhibitor is deemed to have accepted the terms and conditions of the contract between the organisers and the exhibitor. Return of the 'Expression of Interest Form' does not obligate you in any way, nor does it secure you an exhibition site at The Sustainable Living Expo. On return of the above form, you will then be sent a 'Booking Confirmation Form' and 'Booking Contract - Terms & Conditions'.
